

Design Flooring:
R2L[®] - Ready-to-Laminate

R2L[®] - from us directly on the carrier:

The all-in-one solution for you

Our R2L[®] design flooring is an outstanding solution for flooring and stair manufacturers who are focused on durability, sustainability, quality and design. R2L[®] is a unique combination of decorative, wear and varnish layers that can be easily applied directly to the substrate of your choice (wood-based panel or plastic) in a single step. R2L[®] is made out of PP - without PVC and melamine.

Important functions

	Easy laminating		UV-light resistance		Deep embossings
	2D applicable		Scratch & abrasion resistant		Natural look & feel
	PVC-free		Melamine-free		Foot warm & low noise
